Message

I am writing to express that I am not in support of the Atlantic Coast Pipeline. I have spent a great deal of time learning about the project to come to my own conclusions - and in summary, I believe NC has far better opportunities in the renewable energy sector; that this pipeline will only create risk for the environment and people near it; that Duke Energy is not a fair player - and is already responsible for damaging and endangering NC air, soil, water and environment thanks to its coal ash disposal recklessness which it is now seeking to have its customers pay for. The kinds of jobs that will help sustain eastern NC are not the jobs that a dirty pipeline will bring. Thank you for considering my position - which is representative of many, many citizens of NC.
